

GREEN CHANNELS

- Green Channels is managed by French specialist with over 35 years of experience in international textile and garment trade, particularly between Europe, America & Asia. With a strong presence in Dhaka, Bangladesh, we ensure real-time connection between buyers and Bangladeshi factories — enabling seamless, effective communication and operations.
- We are specialist of Fashion, Workwear, Corporate, Uniform & Home Textile.

GREEN CHANNELS

History:

- Green Channels born in 2004 with mission :
- Bring a “Tailor Made” sourcing to our customers
- Control the whole of the operations, in accordance with the American and European standards
- Transmit information in real time

Philosophy :

We wish to maintain with our Customers as with our Manufacturers, long time relations allowing to set up a partnership.

Special achievements :

With a young, well educated, motivated team, assisted by Managers - Merchandiser - Q.C. - having a great experience gained in the factories, supported by modern tools of management, Green Channels knew to raise of the important challenges as :

- Set up a Knit underwear supply chain, for a European great name of this sector, with the obligation for a production, identical to those made in Europe and Maghreb.
- Creation and development of a sourcing for the account of European customers, specialists in the institutional wear, uniform, corporate wear markets - Administrations - Hospitals - Rental - industrial groups -, with the obligation of uniform productions, for multi-annual contracts, respecting the technical files and the whole of the controls requested by the end-user.
- Assistance for one our customer to set-up woven garment factory, based on RESPECT for the production of workwear for Europe market. Today they reach one the best Bangladesh's efficiency and quality level.

GREEN CHANNELS

Process :

1) Selection of the suppliers, according to the characteristics of the market (level of quality, quantity per ref., certification - Oekotex, Iso, Organic cotton, Fair Trade cotton... -, delivery time...)

Being everyday in the factories, we can bring all guaranteed on the respect of the international standards governing the working conditions and the social conditions, by the factories that we propose to you to carry out your orders.

We can offer the finished product or work with your nominated suppliers (fabrics, accessories) to manage only the operations of cut, assembly, professionalization.

2) Price negotiation

3) Samples making

4) Placement of the orders – Retro-planning.

5) Daily follow-up of production – From yarn to finished product - Weekly Report sent to Customer.

6) Controls – Each fabric lot – cut – CM – in line – final inspection (Standard Military Chart 105C – AQL 1,5 – 2,5)

7) Export – Relation with shipment agent – Export documents follow up
